Technical Skills

HTML
CSS
JavaScript
BootStrap
VCS with Git
Paired Programming
Thymeleaf
Test-Driven Development
Java SE
MySQL
Spring Boot Framework
jQuery
Object-Oriented Programming
Java EE (Servlets, JSP)

Development Projects

Echo Vault

Spring Boot Web Application using the MVC design pattern to allow users to create Memorial Pages for loved ones. Users can post memories, comment on other users' memories, and share their favorite photos of loved ones. All entities have full CRUD functionality to create a highly dynamic, user friendly site.

Weather Map

Uses HTML, CSS, jQuery, AJAX, and the OpenWeatherMap API to dynamically update the current weather conditions based on the users input for location.

Ad Lister

Uses Java and the MVC design pattern for a fully functioning site where users can create an account, login, post and update ads, as well as search through all existing ads.

Professional Experience

United Parcel Service - San Antonio, TX **Aug. 2019 - Jul. 2020**

On Road Supervisor

- Successfully trained full-time employees on industry leading safe driving methods in order to achieve world class results in safety.
- Experience in supervision of over 100 employees on a daily basis
- Participated in weekly regional management meetings to provide updates on local safety, service, performance, and cost execution to meet corporate expectations.

United Parcel Service - Virginia Beach, VA **Jul. 2017 - Aug. 2019**
