Development Projects

Coffee Project
This project uses JavaScript to dynamically update the HTML of a webpage. Uses the functionality of sorting, adding, and removing elements from the page.

Weather Map
Uses HTML, CSS, jQuery, AJAX, and the OpenWeatherMap API to dynamically update the current weather conditions based on the users input for location.

Ad Lister
Uses Java and the MVC design pattern for a fully functioning site where users can create an account, login, post and update ads, as well as search through all existing ads.

Professional Experience

United Parcel Service - San Antonio, TX   **Aug. 2019 - Jul. 2020**
On Road Supervisor
- Successfully trained drivers on industry leading safe driving methods in order to achieve world class results in safety.
- Provided annual safety training for existing drivers and new driver training.
- HAZMAT certified - responsible for handling leaking or damaged HAZMAT packages in the facility or on the road.

United Parcel Service - Virginia Beach, VA   **Jul. 2017 - Aug. 2019**
